ABOUT ME

I am a graduate of the AGH University of Science and Technology in Krakow. The specific and demanding technical aspects in my field of studies, taught me accuracy, meticulousness and paying attention to details. I consider myself as an ambitious person, focused on success and ready to overcome all obstacles. I am currently shaping my programming skills and I am ready to start a new career path as a front-end developer. I know that I have a long way to go, which is why I gradually and systematically build my knowledge and skills by doing internet courses with practical tasks.
